Forecast For West Midlands
Issued by Met Office Exeter
at 0400 on Monday 08 Feb 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Snow showers. Remaining bitterly cold with strong winds.

Today:
A frosty start, icy for many, and lying snow for some. Patchy cloud will bring further snow showers, these most frequent in the west and generally drier to the west. Strong winds throughout, feeling bitterly cold. Maximum temperature 1 deg C (34 deg F).

Tonight:
This evening and tonight, snow showers will continue, along with dry spells throughout the night, remaining windy. Drier further south. Feeling very cold, with ice and frost developing. Minimum temperature -2 deg C (28 deg F).

Tuesday:
Patchy cloud, with snow showers continuing throughout tomorrow, with intermittent dry spells. Strong winds, feeling very cold. Maximum temperature 1 deg C (34 deg F).

Outlook for Wednesday to Friday:
Continued mixture of sunny spells and scattered snow showers on Wednesday. Showers ease on Thursday, remaining very cold with brisk winds. Slightly milder Friday, with rain and dry spells.
